

Raleigh Housing Authority
Smoke-free Housing and Building Policy
Effective May 1, 2018

Purpose:

- Help RHA demonstrate its mission of providing safe, decent and sanitary housing. Additionally, smoke-free policies are increasingly being adopted in the rental housing market.
- Focus on the detrimental effects of smoke without penalizing the smoker. This policy is not intended to force anyone to stop smoking or to move out of public housing, but instead to offer safe, decent and sanitary housing for all populations.
- Protect public housing residents from secondhand smoke. Research suggests there is no safe level of smoke exposure. Movement of secondhand smoke between units cannot be controlled in multifamily buildings.
- Prevent injury and death from smoking-related fires. According to studies conducted by insurance companies, more people die in fires started by smoking materials than in any other type of fire.
- Reduce property maintenance and turnover costs. Turning over a smoking unit can cost more than turning over a smoke-free unit. By lowering cost such as these, RHA is able to efficiently provide housing for its residents.
- Assist smokers to quit. Research indicates that smoke-free policies help smokers quit smoking. Research also conducted, finds smoking is the single greatest avoidable cause of disease and death.
- Comply with federal government regulations. Any housing agency receiving federal funds from the Department of Housing and Urban Development (HUD) must adhere to operation regulations and standards for housing quality.
