

Payment Standards – FY 2025 SAFMRs (effective January 1, 2025)

To determine the rent to the owner, calculate the Small Area Fair Market Rent (SAFMR) minus an estimated utility allowance that the Housing Authority is required to give to each family. This utility allowance is included in the rent calculation.

HUD regulation 24 CFR 982.507(a)(2)(i) requires RHA to determine if the requested rent amount is reasonable. A rent reasonable comparison is completed by comparing the unit to unassisted units within the same ZIP code in the private market based on size, unit age, amenities, etc. Landlords will be contacted directly with an option to lower the rent, if the rent is deemed unreasonable. Be aware that a unit is not officially approved for leasing until it has passed the HQS inspection AND the rent is deemed reasonable.

ZIP Code	SRO	0	1	2	3	4	5
